

OUTPATIENT PROGRAM

- Small and engaging group sessions
- Individual sessions with your therapist and access to the entire clinical team
- Aftercare planning that fits your needs
- Job/occupational assistance
- Life skill building including nutrition and physical activities
- Therapeutic family reintegration
- Holistic experiential practice
- Disease Model of Addiction

Medication-assisted treatment, including Vivitrol® and Suboxone®, is available to clients with an opiate addiction on an outpatient basis. All clients receive a complete and comprehensive clinical assessment, individualized treatment planning, educational services, and individual, group and/or family counseling.

Individuals and family members enduring addiction can count on us for an addiction-free lifestyle.

info@elevaterecoveryma.com

WHY ELEVATE RECOVERY CENTER?

- On-site psychopharmacology and affiliations with MAT providers
- Evening outpatient program for daytime workers
- On-site holistic therapies: meditation and mindfulness with an emphasis on individualized care and choice
- Collaboration with families and recovery supports
- Diverse evidence-based group content including CBT, DBT skills, ACT, conflict resolution, trauma education and co-occurring disorders, neurobiology of addiction, stages of change, anger management, relapse prevention, continuing care planning and more.
- Trauma-informed treatment environment
- Transportation services
- National relationships with sober houses for aftercare options

LEVELS OF CARE

Individual and group clinical programming takes place in a comfortable, safe and professional outpatient setting. We offer three levels of care to assist with smooth transitions throughout an outpatient continuum or following inpatient treatment.

1. DAY TREATMENT
2. INTENSIVE OUTPATIENT - INCLUDING AN EVENING TRACK
3. OUTPATIENT PROGRAM

Individualized treatment plans address a variety of topics, including:

- Substance use
- Medical concerns
- Emotional and behavioral concerns
- Relapse prevention and aftercare planning
- Recovery environment
- Repairing positive relationships

WE ACCEPT MOST INSURANCE PLANS

We accept most insurance plans. We also believe that everyone who struggles with a substance use disorder deserves to have access to the addiction treatment they need. If an individual does not have health insurance, they should contact our addiction treatment center in the Greater Boston area to discuss a financial plan that fits their needs or let us help find the right services for them.
